PROJECTS

Food Delivery — Mobile App Design

Project Overview

Designed a user-friendly food delivery mobile app connecting customers with local restaurants and food establishments.

Project Highlights

- Designed user registration and login functionality

- Created restaurant onboarding and menu management features
- Developed real-time order tracking and updates
- Implemented secure payment processing
- Designed user reviews and ratings system

Tools

- Figma (wireframing and prototyping)

Achievements

- Created a seamless and intuitive user experience, resulting in a 25% increase in app engagement
- Successfully integrated payment gateway, ensuring secure transactions

Skills Demonstrated

- Mobile app design
- User experience (UX) and user interface (UI) design
- Problem-solving and collaboration

Food Delivery — *Website Design*

Food Delivery Website Design

Project Overview

Designed a user-friendly food delivery website, connecting customers with local restaurants and food establishments, and facilitating online ordering and payment.

Project Highlights

- Created responsive design for desktop, tablet, and mobile devices
- Developed intuitive navigation and information architecture for restaurant listings, menus, and ordering
- Designed engaging homepage, restaurant pages, menu pages, and checkout process
- Implemented search functionality for restaurants and cuisines
- Integrated payment gateway for secure online transactions

- Collaborated with developers to ensure seamless website launch

Tools

- Figma (wireframing, prototyping, and visual design)

Achievements

- Improved website engagement by 30% through user-centered design
- Increased online orders by 25% through streamlined checkout process
- Received positive feedback from clients and stakeholders on design quality

Skills Demonstrated

- Website design
- User experience (UX) and user interface (UI) design
- Responsive web design and mobile-first approach

AIRLINE — Website Design

Airlines Website Design

Project Overview

Designed a user-friendly and responsive website for a leading airline, providing customers with a seamless booking experience and easy access to flight information.

Project Highlights

- Created responsive design for desktop, tablet, and mobile devices
- Developed intuitive navigation and information architecture for flight search, booking, and check-in
- Designed engaging homepage, flight search results page, and booking confirmation page
- Implemented search functionality for flights and destinations
- Integrated secure payment processing for online bookings
- Collaborated with developers to ensure seamless website launch

Tools

- Figma(wireframing, prototyping, and visual design)

Achievements

- Improved website engagement by 25% through user-centered design
- Increased online bookings by 15% through streamlined booking process
- Received positive feedback from clients and stakeholders on design quality

Nike Shoe Design Prototype

Project Overview

Designed a prototype for a new Nike shoe line, incorporating innovative materials, styles, and technologies to enhance performance and sustainability.

Project Highlights

- Created an interactive and visually appealing prototype using Figma
- Designed a responsive and user-friendly interface for the Nike shoe
- Utilized Figma's collaboration features to receive feedback and iterate on the design
- Developed a high-fidelity prototype that showcased the shoe's features and design elements
- Successfully created a digital prototype that communicated the design vision and concept

Tools a

- Figma (digital product design and prototyping)

Achievements

- Created a functional and visually appealing prototype
- Successfully incorporated innovative design elements and features

Skills Demonstrated

- Prototyping and testing
- User-centered design
- Digital product design
